Laser sprite

Boom sprite

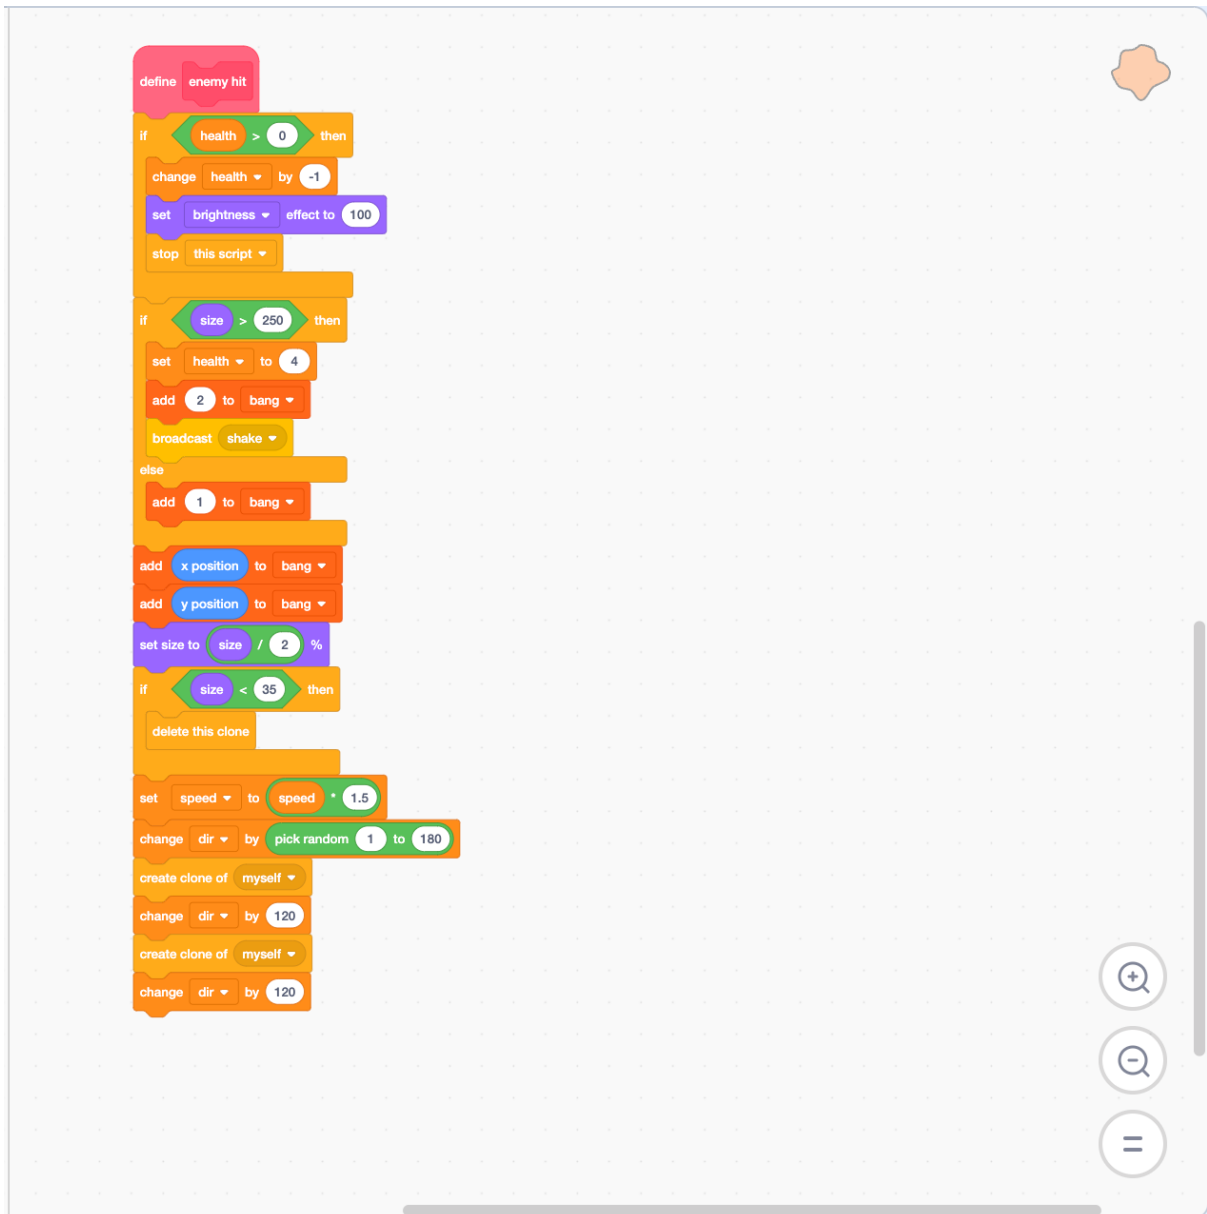

```
when clicked
  switch costume to astroid
  go to back layer
  set size to 300 %
  hide
  wait 2 seconds
  forever
    new enemy
    wait 5 seconds
```

```
define new enemy
  switch costume to big
  go to x: 0 y: 0
  set dir to pick random -180 to 180
  point in direction dir
  move -350 steps
  switch costume to astroid
  set speed to 1
  set health to 15
  create clone of myself
```

```
when I start as a clone
  show
  forever
    set brightness effect to 0
    if touching laserSprite1 ? then
      enemy hit
    switch costume to big
    change x by speed * sin of dir
    change y by speed * cos of dir
    change x by shake dx
    change y by shake dy
    turn 5 degrees
    wrap around
    switch costume to astroid
```

```
define wrap around
  if x position > 350 then
    set x to -350
  else
    if x position < -350 then
      set x to 350
  if y position > 280 then
    set y to -280
  else
    if y position < -280 then
      set y to 280
```
